

Do you find  
yourself feeling:

Sad?

You don't enjoy  
things like you  
used to?

Irritated?

The **Mechanisms Underlying Treatment Technologies (MUTT) Lab** is seeking caregivers and adolescents ages 12 to 18-years-old with some symptoms of depression to participate in a study. We are investigating how adolescents' thoughts, moods, and behaviors may change how they feel over time, as well as what drives depression in adolescents.

## Requirements

Participation is required for approximately **one month**.\*

- **Parents and adolescents** will fill out questionnaires interviews over Zoom
- Adolescents will download an app on their smartphone to track their mood and phone-use over time

\* includes pre-interview, a 28-day data collection period and post-interview

## Benefits

Adolescents  
can earn up to

**\$127**

Parents can  
earn up to

**\$40**
