

Are you the parent of a 4- to 6-year-old?

The **Project on Language and Spatial Development** at Florida International University is recruiting children for a research study funded by the National Institutes of Health.

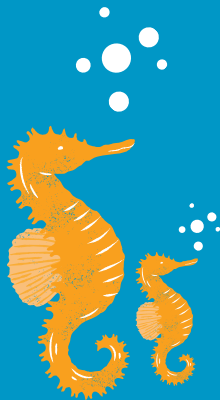

What will my child and I be asked to do?

- Your child will receive a 30-minute MRI brain scan, play a hide-n-seek game and complete memory, learning, and language tasks.
- You will complete questionnaires about your child's behavior, interests and experiences.

What do my child and I receive?

- Your child will receive a small prize and a picture of their brain.
- Intellectual and Academic achievement testing
- Eligible families can receive up to **\$150** in compensation.

How do I sign up?

To see if your child is eligible, please scan this QR code and complete the screener, or call us at **305-348-9055**.
