The Trauma-Informed Screening and Treatment Program

This **grant-funded program** offers **Trauma-Focused Cognitive Behavioral Therapy (TF-CBT)** to kids and teens **ages 3 to 17** experiencing any distress from trauma as well as their caregivers.

This program is led by faculty in the **School of Social Work at FIU** and the **Center for Children and Families (CCF)** in conjunction with multiple community agencies.

**TF-CBT Sessions**

- Range from 12-25 meetings depending on the severity
- Currently accepts referrals
- Held in three different locations including in the home

The Trauma-Informed Screening and Treatment Program

Providing Trauma-Focused Cognitive Behavioral Therapy (TF-CBT) to youth and families in Miami-Dade County

**What is a Traumatic Event?**

One that threatens injury, death, or the physical integrity of self or others and also causes horror, terror, or helplessness at the time it occurs. Youth who have experienced trauma or abuse may find it difficult to talk about or admit.

**What are the Signs and Symptoms?**

Children experiencing distress from trauma may display sadness, irritability, impulsivity, new fears, trouble sleeping, nightmares, difficulty at school and with concentration, and somatic complaints.
